Use in combination with fertilizers and plant growth supplements for superior plant growth and yield.

SHAKE WELL BEFORE USE. Mix according to label directions and stir well before use. Prepare mix for one application only and use immediately. Do not store diluted product.

IMPORTANT: Follow label directions EXACTLY and DO NOT apply more than recommended.

DIRECTIONS FOR USE: GS Professional can be applied as a foliar spray, soil drench, or through irrigation systems. For foliar sprays, spray foliage until wet. Apply 1-4 times per month.

Lawn and garden: Use 4 drops per gallon of fertilizer or water for smaller areas. When using granular or dry fertilizers, mix 2-4 drops of GS Professional per gallon of water and apply 1-2 weeks following fertilization.

Large areas: Apply 1 fl. oz. (30 ml) of GS Professional per acre mixed with sufficient fertilizer or water for thorough coverage.

Trees: Apply 4 drops per gallon of water or fertilizer at 1-3 month intervals. Wet the bark from ground to 7 feet of tree height or drench 1 gallon of diluted solution under the drip line per 10 feet of tree height.

Hydroponics and soil systems: Apply as a foliar spray. Use 2 drops per gallon of water if used in combination with other liquid Grower's Secret products. If no other Grower's Secret products are applied within the same week, apply 4 drops per gallon of water. Reapply when the system is refreshed but not within 7 days of the last application of a Grower's Secret product.
