Manufactured in the USA by:
Grower's Secret, Inc.
785 Market St., Ste. 600
San Francisco, CA 94103

This bottle is made from 100% post-consumer plastic. Information on our eco-packaging is at: www.growerssecret.com

Use in organic gardening to promote greener looking plants. Suitable for use on all plant types as a foliar and soil fertilizer. Can be applied to fruit, nut, and ornamental trees, shrubs, vines, small fruits, vegetables, indoor and outdoor potted plants, and landscape plants.

SHAKE WELL BEFORE USE. Mix according to label directions and stir well before use. Prepare mix for one application only, and use immediately. Do not store diluted product.

IMPORTANT: Follow label directions and DO NOT apply more than recommended.

DIRECTIONS FOR USE:

Lawns and Gardens: Dissolve in 2-4 tablespoons (30-60 ml) in 1 gallon of water and apply to vegetables, lawn, and other plants with a hose-end sprayer or conventional sprayers. Use as needed 1-4 times per month when plants are actively growing.

Hose-end sprayer: Shake well before connecting to garden hose. Start water flow, open valve on spray top, and apply contents evenly over a 2000-4000 sq. ft. area. Thorough coverage is important.

Conventional sprayer: Dissolve 2-4 tablespoons (30-60 ml) in 1 gallon of water and apply as a foliar spray or drench soil in a 30-60 sq. ft. area.

Trees and shrubs: Dissolve 2-4 tablespoons in 1 gallon of water and apply as a foliar or bark spray, or as a soil drench. For foliar spray, spray foliage until wet. As bark spray, thoroughly wet bark from ground to 7 ft. of tree height. As a drench, use 1 gallon per 10 feet of tree height. Apply monthly.

Hydroponics and Soil Systems: Use 0.8 teaspoon (4 ml) per 1 gallon of water. Reapply when the system is refreshed but not within 7 days of last application of a Grower's Secret product. Green Up is recommended for use with Expand.

STAGE:	DEFINITION:
1	Propagate (Germination, Seedlings, Clones)
2	Grow (Vegetative Growth)
3	Bloom (Bud to Flower and Fruit)
4	Finish (Ripening to Harvest)
